What is CaringBridge?

CaringBridge provides free websites that connect people experiencing a significant health challenge to family and friends, making each health journey easier. CaringBridge websites offer a personal and private space to communicate and show support, saving time and emotional energy when health matters most.

How CaringBridge Works

Each site is unique – authors add health updates and photos to share their story while visitors leave messages in the guestbook, creating a network of support for the patient.

Online Community of Care

A personal CaringBridge website brings family and friends together online, surrounding a patient and their caregivers with love, hope and compassion.

“On the first day I created my CaringBridge website I received 120 visits. I never could have communicated with 120 people in one day without this website.”

– Sara Pallan,
a woman in remission from leukemia
